PURPOSE

Trican is committed to a strong Health, Safety, Environmental Protection and Loss Prevention program in order to protect our employees, customers, visitors and the general public from accidental losses.

SCOPE

Trican, and its employees at every level, are responsible and accountable for overall safety initiatives. All personnel employed or engaged by Trican shall ensure that safety, health and concern for the environment are integral parts of all Trican work processes and procedures. In addition to this policy, Trican supports the Petroleum Industry Guiding Principles for Worker Safety.

VALUES

This commitment to a safe workplace will be accomplished through complying with all applicable governmental regulations and sound industry safe work practices. The Company respects the right of employees to refuse to do work where unsafe conditions exist. Trican will provide the training, personal protective devices, appropriate and properly maintained equipment and avenues of communication to ensure a safe and environmentally secure workplace.

The personal commitment and active participation of all levels of management, supervisors, workers and contractors are required and expected. By fulfilling our safety and environmental responsibilities, everyone will share the prosperity that a safe workplace brings.

Dale Dusterhoft
President & Chief Executive Officer
