NOTE 1 – NATURE OF BUSINESS, BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of business

Trican Well Service Ltd. (the “Company” or “Trican”) is an oilfield service company incorporated under the laws of the province of Alberta. These consolidated financial statements include the accounts of the Company and its subsidiaries, all of which are wholly owned. The Company provides a comprehensive array of specialized products, equipment, services and technology for use in the drilling, completion, stimulation and reworking of oil and gas wells primarily through its continuing pressure pumping operations in Canada. At September 30, 2017, the Company also has a minority ownership interest of Keane Group Holdings, LLC (“Keane Holdings”) in the United States. Trican acquired its interest in Keane Holdings in conjunction with the sale of its US operation (see note 12). The Company purchased 100% of the common shares of Canyon Services Group Inc. (“Canyon”) (see note 5) effective June 2, 2017.

The Company has presented the results of its pressure pumping operations in the United States (“U.S.”), Australia, Kazakhstan, Colombia, Algeria and Saudi Arabia, as discontinued operations. In addition, Trican presented the results of its completion tools businesses in Canada, the U.S., Russia, and Norway as discontinued operations (see note 4).

Basis of preparation and summary of significant accounting policies

These condensed consolidated interim financial statements for the three and nine month periods ended September 30, 2017, have been prepared in accordance with IAS 34 *Interim Financial Reporting*. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the Company’s 2016 consolidated annual financial statements which have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

These condensed consolidated interim financial statements have been prepared using accounting policies consistent with those used in the Company’s 2016 consolidated annual financial statements, with the exception of policies noted below.

In connection with the business combination with Canyon (see note 5), the Company reassessed and defined its cash generating units (“CGUs”). The Company’s CGUs post acquisition are: Pressure Pumping, Cementing, and Fluid Management Services. In assessing its CGUs the Company examined the cash inflows for the combined entity focusing on service and product alignment and integration. Goodwill and intangible assets recognized as a result of the Canyon acquisition are allocated to the CGU that is expected to benefit from the synergies of the business combination.

The business combination with Canyon resulted in the recognition of intangible assets. The intangible assets are amortized on a straight line basis over periods ranging from 4 months (revenue backlog) and 6 years (customer relationships).

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on November 1, 2017.

NOTE 2 – CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of condensed consolidated interim financial statements in compliance with IAS 34 requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company’s accounting policies. The areas where significant judgment and estimates have been made in preparing the financial statements and their effect are disclosed in Note 1 of the Company’s 2016 consolidated annual financial statements.

Purchase Price Allocation

The measurement of each business combination requires management estimation in determining the fair value of assets acquired and liabilities assumed as well as the fair value of any intangible assets identified. Management is required to estimate future cash flows, discount rates and market conditions at the date of the acquisition in order to determine the fair value of certain identified tangible and intangible assets.

NOTE 3 – NEW ACCOUNTING STANDARDS AND PRONOUNCEMENTS NOT YET ADOPTED

The International Accounting Standards Board (IASB) have issued the following standards that have not been applied in preparing our 2017 third quarter unaudited condensed consolidated interim financial statements and notes thereto, as their effective dates fall within annual periods beginning subsequent to the current reporting period:

In July, 2014 the IASB issued the complete IFRS 9, Financial Instruments, (IFRS 9 (2014)). Under the new standard, financial assets are classified and measured based on the business model in which they are held and the characteristics of their contractual cash flows. It also amends the impairment model by introducing a new ‘expected credit loss’ model for calculating impairment. Further, IFRS 9 (2014) includes a new general hedge standard that is better aligned with companies’ risk management, expands the scope of the hedging strategies, and introduces more judgment to assess the effectiveness of the hedge relationship. The amendments to IFRS 9 (2014) are effective for annual periods beginning on or after January 1, 2018, and are available for early adoption. The Company expects IFRS 9 will impact the Company’s current policies and procedures regarding provisions on trade receivables and the Keane investment. Trade receivables are recorded at its original invoice less any amounts estimated to be uncollectable. Under IFRS 9, the expected loss impairment model replaces the current incurred loss model and is based on forward looking approach which includes earlier recognition of losses. Given the short term nature of these receivables, the Company does not anticipate these changes to have a material financial impact. IFRS 9 also contains a new model to be used for hedge accounting. The Company does not currently apply hedge accounting and is currently assessing the impact on the Keane investment.

IFRS 15, Revenue from Contracts with Customers, was issued on May 28, 2014. The Standard contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognized. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of revenue recognized. The Standard replaces IAS 11, Construction Contracts, IAS 18, Revenue, IFRIC 13, Customer Loyalty Programs, IFRIC 15, Agreements for the Construction of Real Estate, IFRIC 18, Transfer of Assets from Customers, and SIC 31, Revenue – Barter Transactions Involving Advertising Services. The new standard is effective for annual periods beginning on or after January 1, 2018. Early adoption is also permitted. The Company anticipates no change to the timing or amounts of revenue recognized but continues to assess its revenue streams to determine the impact, if any, that the adoption of IFRS 15 will have on its financial statements, as well as the impact that adoption of the standard will have on disclosure.

IASB issued IFRS 16, Leases, in January 2016. The new standard replaces IAS 17, Leases. It is in effect for accounting periods beginning on or after January 1, 2019. Early adoption is permitted only if the Company has adopted IFRS 15, Revenue from Contracts with Customers. Under the new standard, more leases will be reported on the balance sheet for lessees, with the exception of leases with a term not greater than 12 months and “small value” leases. Lease accounting for lessors remains substantially the same as existing guidance. During 2018, the Company will complete an assessment documenting the potential impacts of IFRS 16 on its consolidated financial statements.

The Company’s initial assessments on the IFRS 9, IFRS 15, and IFRS 16 are based on work completed to date and may be subject to change as the assessments continue.

NOTE 4 – ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

Assets and liabilities held for sale

The Company has classified certain assets and liabilities as held for sale. As at September 30, 2017 and December 31, 2016, management was committed to a plan to sell its operating assets in Australia, Colombia, Algeria and Saudi Arabia, as well as assets relating to the discontinued microseismic division and relating to real estate assets in Canada's continuing operations.

The following table represents the assets and liabilities held for sale:

	September 30, 2017	December 31, 2016
Trade receivables	**$1,255**	$783
Inventory	**-**	70
Prepaid expenses	**79**	75
Current tax assets	**144**	153
Property and equipment	**5,707**	7,586
Total assets held for sale	**$7,185**	$8,667
Trade and other payables	**$254**	$279
Total liabilities held for sale	**$254**	$279

An impairment charge of $0.5 million, (September 30, 2016 - $26.4 million) was recorded during the nine months ended September 30, 2017, as a result of measuring the assets held for sale at the lower of cost or fair value less cost of disposal.

The Company entered into a sales agreement for property and equipment remaining in Saudi. The sale is expected to close in Q4 2017. The sale of the assets in Colombia were finalized during Q3 2017.

Results of Discontinued Operations

In the second quarter of 2016, the Company's completion tools business met the criteria for presentation as discontinued operations. In the first quarter of 2016, the Company's pressure pumping businesses in the U.S., Kazakhstan, Colombia and Saudi Arabia met the criteria for presentation as discontinued operations. In addition, the Company's pressure pumping business in Russia, Australia and Algeria met the criteria for presentation as discontinued operations in the third quarter of 2015.

NOTE 5 – BUSINESS COMBINATION

Effective June 2, 2017, prior to the commencement of business, the Company acquired all of the issued and outstanding shares of Canyon based on 1.70 common shares of Trican for each Canyon share. Canyon is an oilfield services company that focuses operations in the Western Canadian Sedimentary Basin with two core business lines: Pressure Pumping Services and Fluid Management Services. The primary strategic reason for the business combination is to increase the Company's ability to provide fracturing services to its customers.

On June 2, 2017, the Company issued 152,549,556 common shares which were valued at the closing trading price of the Company's common shares being $4.11 per share on June 1, 2017. The fair value of the consideration transferred totaled $627.0 million.

The acquisition has been accounted for using the acquisition method, whereby the assets acquired and the liabilities assumed were recorded at their fair values with the surplus of the aggregate consideration offered relative to the fair value of the identifiable net assets recorded as goodwill. The Company assessed the fair values of the net assets acquired based on management's best estimate of the market value, which takes into consideration the condition of the assets acquired, current industry conditions and the discounted future cash flows expected to be received from the assets as well as the amount that it is expected to settle the outstanding liabilities. Canyon's operating results have been included in the Company's revenues, expenses and capital spending effective June 2, 2017.

(Stated in thousands, except share and per share amounts)

($ thousands)	
Working Capital, (including cash $6,222)	$56,327
Property and Equipment	360,621
Goodwill	241,780
Intangibles	69,714
Loans and borrowings	(47,394)
Deferred tax liability	(54,069)
Total net assets acquired	$626,979

The allocations and determinations of the consideration described above are preliminary and subject to change.

The goodwill and intangible assets arise as a result of the assembled workforce, the synergies existing within the acquired business and also the synergies expected to be achieved as a result of combining Canyon with the rest of the Company. None of the goodwill recognized is expected to be deductible for income tax purposes. The intangible assets are a result of a revenue backlog of $4.6 million and customer relationships of $65.1 million established by Canyon. Discount rates of 14% and 16% respectively were used in calculating these amounts.

As part of the acquisition, the Company assumed $43 million in long-term debt held by Canyon. The entire balance was settled upon closing the transaction. Therefore, for purposes of the purchase equation, the amount is included in the total assets and total liabilities assumed. The cash balance included in the Canyon acquisition have been presented separately in the consolidated statements of cash flows for the three and nine months ended September 30, 2017.

For the period January 1, 2017 to June 2, 2017, Canyon would have contributed $213.3 million of revenues and loss before taxes of $8.1 million had the Transaction occurred on January 1, 2017. The additional revenue and net loss are estimates and may not be representative of the results had the acquisition actually occurred on January 1, 2017.

The Company incurred costs related to the acquisition of Canyon for the three and nine months ended September 30, 2017, of $4.0 million and of $17.8 million, respectively. These costs mainly relate to due diligence, advisory and external legal fees as well as employee related expenditures. These costs have been recognized within administrative expenses on the consolidated statement of comprehensive income.

RCF

As at September 30, 2017, Trican has a $227.3 million (December 31, 2016 - $250 million) extendible revolving credit facility (“RCF”) with a syndicate of banks that is committed until October 31, 2018. The RCF is secured and bears interest at the applicable Canadian prime rate, U.S. prime rate, Banker’s Acceptance rate, or at LIBOR, plus 350 to 625 basis points (December 31, 2016 – Canadian prime rate, U.S. prime rate, Banker’s Acceptance rate, or at LIBOR, plus 350 to 625 basis points), dependent on certain financial ratios of the Company. The undrawn amount of the RCF is $121.3 million of which $119.0 million is accessible as at September 30, 2017 (December 31, 2016 - $110 million).

(Stated in thousands, except share and per share amounts)

As at September 30, 2017, Trican has a $10 million (December 31, 2016 - $10 million) Letter of Credit facility with its syndicate of banks. As at September 30, 2017, Trican had $2.3 million in letters of credit outstanding (December 31, 2016 - $5.1 million).

Covenants

The Company is required to comply with covenants that are applicable to the RCF and to the Senior Notes. Trican is required to comply with the following leverage and interest coverage ratio covenants:

For the quarter ended	Leverage Ratio	Interest Coverage Ratio	Calculation Basis
September 30, 2017	<5.0x	>2.0x	((Q1 + Q3) x 3/2) + Q2
December 31, 2017	<4.0x	>2.5x	Last twelve months
Thereafter	<3.0x	>3.0x	Last twelve months

The Leverage Ratio is defined as long-term debt excluding Subordinated Make Whole Notes (net of the mark to market value of the cross currency swaps) minus cash divided by adjusted EBITDA. As at September 30, 2017, the Leverage Ratio was 0.6 (December 31, 2016 – not applicable).

The Interest Coverage Ratio is defined as adjusted EBITDA divided by interest expense minus payable in-kind interest. As at September 30, 2017, the Interest Coverage Ratio was 23.6 (December 31, 2016 – not applicable).

Certain non-cash expenses and personnel based expenses such as severance are permitted to be added back to EBITDA to arrive at adjusted EBITDA for covenant calculation purposes.

The Company is in compliance with its financial covenants for the quarter ended September 30, 2017 (2016 – no covenants applicable).

NOTE 12 - FINANCIAL INSTRUMENTS

Fair values of financial assets and liabilities

The fair values of cash and cash equivalents, trade and other receivables, and trade and other payables included in the consolidated statement of financial position approximate their carrying amount due to the short-term maturity of these instruments.

For the nine month period ended September 30, 2017, two customers accounted for 21% of the Company's revenue (year ended December 31, 2016 – 17%).

(Stated in thousands, except share and per share amounts)

The fair value of the RCF was determined by calculating future cash flows, including interest at current rates. The fair value of capital lease obligations was determined by calculating the future cash flows, including interest, using market rates. The fair value of the loan to an unrelated third party is $1.2 million (December 31, 2016 - $8.6 million). The fair value was calculated using a discounted cash flow approach with an effective interest rate of 12%. The fair value of the currency derivatives has been based on the forward swap rates at the end of the period.

On January 20, 2017, Keane Group, Inc. completed its initial public offering ("IPO") and its shares became publicly traded on the New York Stock Exchange under the ticker symbol "FRAC". As a result of the IPO, Trican's ownership interests in Keane Holdings have been transferred to Keane Investor Holdings, LLC ("Keane Holding Company"). Effectively, our Class A common shares and Class C profits interest in Keane Holdings are now Class A common shares and Class C profits interests in the Keane Holding Company. At the time of IPO, the Keane Holding Company also registered a total of 15,074,000 shares at a price of US$19 which resulted in a distribution of $37.8 million (US$28.4 million) for Trican and a realized gain of $24.5 million ($11 million after tax). At September 30, 2017, the Keane Holding Company's only asset was 72.2 million shares of FRAC and it had no liabilities.

Future liquidity events will effectively be the future sale of the remaining shares of FRAC currently held by the Keane Holding Company. The proceeds from the future sales will be distributed to the owners of Keane Holding Company. Trican's portion of the future liquidity events will be calculated based on the following waterfall table:

	Trican	**Liquidity Event Cumulative Proceeds Thresholds (US $MM)**				
	Ownership	**For the Year Ending March 15**				
Tranche	**Interest**		**2018**	**2019**	**2020**	**2021**

The fair value of Class A and Class C shares was calculated based on an estimate of Trican's portion of future liquidity events using an estimated share price of US $16.68 per share, and a discounted cash flow model risk adjusted with rates of 16% for the Class A equity interest and 40% for the Class C profit interest. These risk adjustments considered various factors including the time value of money and take into consideration several estimates for uncertainties relating to Trican's non-controlling interest in the Keane Holding Company and the timing and price of future liquidity events. The calculation of the fair value of the Class A and Class C shares also utilized the following distribution schedule:

Year ending March 15, 2018: 25% of outstanding shares after the IPO
Year ending March 15, 2019: 50% of outstanding shares after the IPO
Year ending March 15, 2020: 25% of outstanding shares after the IPO

During the nine months ended September 30, 2017, Trican disposed of 558,221 National Oilwell Varco Inc. marketable securities, for net proceeds of $28.0 million, representing its entire balance of marketable securities (fair value as at December 31, 2016 - $28.1 million).

For the nine months ended September 30, 2017, $26.3 million of unrealized loss on the Class C shares and $24.5 million of realized gain on the Class A shares, for a total loss of $1.8 million, have been recorded in net income.

The table below analyzes financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); or
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Other litigation

On August 25, 2015, a class action lawsuit was filed on behalf of 31 plaintiffs against Trican Well Service, LP. The claim alleges that Trican misclassified the plaintiffs' position as "exempt" from overtime wages from February 2011 to August 2015, resulting in a loss of overtime wages during this period. The class of plaintiffs was set on May 31, 2016, and consisted of 31 total plaintiffs. Since that date, we have 2 plaintiffs withdraw from the lawsuit, dropping the total plaintiffs down to 29. The plaintiffs claim that the potential damages as a result of this claim could reach US$2.2 million.

On January 13, 2016, a class action lawsuit was filed on behalf of 11 plaintiffs against Trican Well Service, LP. The claim alleges that Trican misclassified the plaintiffs' position as "exempt", resulting in a loss of overtime. The plaintiffs claim that the potential damages as a result of this claim could reach US$3.3 million.

Given the information available at these early stages of litigation, management has not recorded any amount for this contingent liability associated with these claims based on our belief that a liability is not probable and any range of potential future charge cannot be reasonably estimated at this time.

The tax regulations and legislation in the various jurisdictions that the Company operates in, or has previously operated in, are continually changing. As a result, there are usually some tax matters under review. Management believes that it has adequately met and provided for taxes based on the Company's interpretation of the relevant tax legislation and regulations.

NOTE 14 – SUBSEQUENT EVENTS

At November 1, 2017, the Company has purchased and cancelled 2,208,500 common shares at a weighted average price per share of $4.48 pursuant to its NCIB.
