NOTE 1 – NATURE OF BUSINESS, BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of business

Trican Well Service Ltd. (the “Company” or “Trican”) is an oilfield services company incorporated under the laws of the province of Alberta. These consolidated financial statements include the accounts of the Company and its subsidiaries, all of which are wholly owned. The Company provides a comprehensive array of specialized products, equipment, services and technology for use in the drilling, completion, stimulation and reworking of oil and gas wells primarily through its continuing pressure pumping operations in Canada. At June 30, 2018, the Company also owns a minority ownership interest in a United States entity, Keane Investor Holdings, LLC (“Keane Holdings”). Trican acquired its interest in Keane Holdings from the sale of its US operation (see note 11). The Company purchased 100% of the common shares of Canyon Services Group Inc. (“Canyon”) effective June 2, 2017. The Company’s head office is Suite 2900, 645 – 7th Avenue S.W., Calgary, Alberta, T2P 4G8.

Basis of preparation

These condensed consolidated interim financial statements for the three and six month periods ended June 30, 2018, have been prepared in accordance with IAS 34 *Interim Financial Reporting*. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the Company’s 2017 consolidated annual financial statements which have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). These condensed consolidated interim financial statements follow the same policies as in the Company’s 2017 consolidated annual financial statements except as noted below.

The consolidated interim financial statements are presented in Canadian dollars and have been rounded to the nearest thousands, except where indicated. Certain figures have been reclassified to conform to the current presentation of these financial statements. Changes to significant accounting policies are described in note 3.

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on July 31, 2018.

NOTE 2 – CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of the condensed consolidated interim financial statements in compliance with IAS 34 requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company’s accounting policies. The areas where significant judgment and estimates have been made in preparing the financial statements and their effect are disclosed in Note 1 of the Company’s 2017 consolidated annual financial statements.

NOTE 3 – CHANGES IN SIGNIFICANT ACCOUNTING POLICIES

Except as described below, the accounting policies applied to these condensed consolidated interim financial statements are the same as those applied to Trican’s financial statements as at and for the year ended December 31, 2017. The changes in accounting policies are also expected to be reflected in the consolidated financial statements as at and for the year ended December 31, 2018.

New accounting policies

Trican has adopted IFRS 9, *Financial instruments* and IFRS 15, *Revenue from Contracts with Customers* effective January 1, 2018.

IFRS 9 *Financial Instruments*

IFRS 9 sets out requirements for recognizing and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces IAS 39 Financial Instruments: *Recognition and Measurement*. The initial effect of applying these standards is mainly attributed to the classification and measurement of financial assets and financial liabilities of the Company's Investments in Keane Holdings. The Company has adopted IFRS 9 effective January 1, 2018.

The details of IFRS 9 and the nature and effect of changes to previous accounting policies are discussed below.

Classification and measurement of financial assets and liabilities

Financial assets are classified and measured based on the business model in which they are held and the characteristics of their contractual cash flows. IFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, fair value through OCI ("FVOCI") and fair value through profit and loss ("FVTPL"). The standard eliminates the previous IAS 39 categories of held to maturity, loans and receivables and available for sale.

A financial asset is measured at amortized cost if it is held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Under IFRS 9 if an equity investment is not held for trading, an entity can make an irrevocable election at initial recognition to measure it at FVOCI with only dividend income recognized in profit or loss. This election was not made and accordingly, the Class A shares of the Investment in Keane Holdings, which were previously classified as available for sale under IAS 39 will be classified as FVTPL under IFRS 9.

As is permitted under IFRS 9, the Company elected to adopt the standard without restatement of comparative figures and an opening transition adjustment has been recorded to opening retained earnings and accumulated other comprehensive income.

The following table summarizes the impact, net of tax, of transition to IFRS 9 on the opening balance of retained earnings and accumulated other comprehensive loss.

(stated in thousands)	Impact of adopting IFRS 9 on opening balance
Retained earnings	
Reclassification of accumulated gains on Class A shares of Keane Holdings	36,419
Impact at January 1, 2018	36,419
Accumulated other comprehensive (loss) / income	
Reclassification of accumulated gains on Class A shares of Keane Holdings	(36,419)
Impact at January 1, 2018	(36,419)

Cash and trade and other receivables that were classified as loans and receivables under IAS 39 are now classified as amortized cost. In addition, Trade and other payables and Loans and Borrowings, which were previously classified as Other financial liabilities under IAS 39 will be classified as amortized cost under IFRS 9. No change in measurement related to these items was recorded on the transition to IFRS 9 on the opening balances at January 1, 2018.

Under IFRS 9 there is no change to the classification and measurement of the Profits Interest in Keane (Class C Shares).

The effect of adopting IFRS 9 on the carrying amounts of financial assets at January 1, 2018, relates to the new impairment requirements described below.

Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' ("ECL") model for calculating impairment. The new impairment model applies to financial assets measured at amortized cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. Under IFRS 9, credit losses are recognized earlier than under IAS 39. The Company determined that there is no material impact to the measurement of financial assets under IFRS 9.

IFRS 15 *Revenue from Contracts with Customers*

IFRS 15 contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognized. The Standard replaces IAS 11, Construction Contracts, IAS 18, Revenue, and related interpretations. The Company has adopted IFRS 15 effective January 1, 2018.

The Company determined that there is no material impact to the timing of recognition or measurement of revenue under IFRS 15.

The Company's revenue comprises services and other revenue and is sold based on fixed or agreed-upon priced purchase orders or contracts with the customer. Revenue is considered recognized over time when services are provided at the applicable rates as stipulated in the contract. In general, the Company does not enter into long-term contracts. Revenue is recognized daily upon completion of services. Operating days are measured through field tickets. Customer contract terms do not include provisions for significant post-service delivery obligations. The Company generates revenue primarily from pressure pumping and other related services and has one reportable segment at June 30, 2018, and in the comparative periods. The nature of the services provided by the Company are affected by the same economic factors and follow the same policies as it relates to both measurement and timing of recognition. The timing and uncertainty of revenue and cash flows are similar.

Future accounting pronouncements

The International Accounting Standards Board ("IASB") issued IFRS 16, *Leases*, in January 2016. The new standard replaces IAS 17, Leases. Under the new standard, more leases will be recognized on the statement of financial position for lessees, with the exception of leases with a term not greater than 12 months and "small value" leases. Lease accounting for lessors remains substantially the same as existing guidance.

The standard will come into effect for accounting periods beginning on or after January 1, 2019, IFRS 16 is required to be adopted either retrospectively or using a modified retrospective approach. The modified retrospective approach does not require restatement of prior period financial information as it recognizes the cumulative effect of IFRS 16 as an adjustment to opening retained earnings and applies the standard prospectively. The transition approach has not yet been determined, it is anticipated that the adoption of IFRS 16 will have a material impact on Trican's financial statements.

At June 30, 2018, the Company's IFRS 16 transition project consists of three key phases: project scoping, impact analysis, and implementation phase. In addition, the impact of IFRS 16 is being further investigated to assess whether there may be a broader impact to Trican, which may include Trican's debt agreements, key performance measures, management reporting, and budget process. The Company is in the process of completing a scoping exercise and performing detailed evaluations of its contracts that are potentially leases for accounting requirements under IFRS 16. This phase, along with the assessment and implementation of changes to policies, internal controls, information systems, and business and accounting processes, will continue throughout 2018.

NOTE 4 – ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

Assets and liabilities held for sale

The Company has classified certain assets and liabilities as held for sale. As at June 30, 2018, management was committed to a plan to sell its operating assets in Australia, Algeria and Saudi Arabia, as well as assets relating to the discontinued microseismic division and equipment in Canada's continuing operations.

The following table represents the assets and liabilities held for sale:

RCF

As at June 30, 2018, Trican has a $227.3 million (December 31, 2017 – $227.3 million) extendible revolving credit facility ("RCF") with a syndicate of banks that is committed until April 18, 2020. The RCF is secured and bears interest at the applicable Canadian prime rate, U.S. prime rate, Banker's Acceptance rate, or at LIBOR, plus 125 to 400 basis points (December 31, 2017 – Canadian prime rate, U.S. prime rate, Banker's Acceptance rate, or at LIBOR, plus 125 to 400 basis points), dependent on certain financial ratios of the

Company. The undrawn amount of the RCF is $202.3 million (December 31, 2017 – $184.3 million) of which $200.2 million is accessible (December 31, 2017 - $179.5 million accessible) due to the Company's Letters of Credit and amounts drawn on a U.S. dollar line of credit as at June 30, 2018.

As at June 30, 2018, Trican has a $10.0 million (December 31, 2017 – $10.0 million) Letter of Credit facility with its syndicate of banks included in the $227.3 million above. As at June 30, 2018, Trican has $2.1 million in letters of credit outstanding (December 31, 2017 – $4.4 million).

Covenants

The Company is required to comply with covenants that are applicable to the RCF and to the Senior Notes. Trican is required to comply with the following leverage and interest coverage ratio covenants:

For the quarter ended	Leverage Ratio	Interest Coverage Ratio	Calculation Basis
June 30, 2018 and thereafter	<3.0x	>3.0x	Last twelve months

The Leverage Ratio is defined as debt excluding Subordinated Make-Whole Notes plus Letter of Credit facility minus cash divided by Bank EBITDA. As at June 30, 2018, the Leverage Ratio was 0.3 (December 31, 2017 – 0.4).

(stated in thousands)	**June 30, 2018**	December 31, 2017
Senior Notes Net Debt	**$57,709**	$92,289
Bank EBITDA	**$198,438**	$213,216
Leverage Ratio	**0.3**	0.4

The Interest Coverage Ratio is defined as Bank EBITDA divided by interest expense minus paid in-kind interest. As at June 30, 2018, the Interest Coverage Ratio was 14.3 (December 31, 2017 – 18.4).

(stated in thousands)	**June 30, 2018**	December 31, 2017
Interest Expense	**$9,301**	$11,566
Bank EBITDA	**$198,438**	$213,216
Interest Coverage Ratio	**14.3**	18.4

Certain non-cash expenses (including depreciation, amortization, impairment expenses, equity settled stock based compensation), gains and losses resulting from Investments in Keane, personnel based expenses (such as severance), and certain other items, are permitted to be adjusted to EBITDA to arrive at bank EBITDA for covenant calculation purposes.

The Company is in compliance with its financial covenants for the quarter ended June 30, 2018.

NOTE 6 - SHARE CAPITAL AND ACCUMULATED OTHER COMPREHENSIVE INCOME

NOTE 11 - FINANCIAL INSTRUMENTS

Fair values of financial assets and liabilities

The fair values of cash and cash equivalents, trade and other receivables, and trade and other payables included in the consolidated statement of financial position approximate their carrying amount due to the short-term maturity of these instruments.

For the three and six month period ended June 30, 2018, two customers accounted for 41.0% and 27.4% of the Company's revenue (year ended December 31, 2017 – 28.2%).

The fair value of the RCF was determined by calculating future cash flows, including interest at current rates. The fair value of capital lease obligations was determined by calculating the future cash flows, including interest, using market rates.

On January 20, 2017, Keane Group, Inc. completed its initial public offering ("IPO") and its shares became publicly traded on the New York Stock Exchange under the ticker symbol "FRAC". As a result of the IPO, Trican's ownership interests in Keane Group Holdings, LLC was transferred to Keane Holdings. Effectively, Trican's Class A shares and Class C profits interest in Keane Group Holdings, LLC are now Class A common shares (Equity Interest) and Class C shares (Profit Interest) in Keane Holdings. At the time of IPO, Keane Holdings registered a total of 15,074,000 shares at a price per share of USD $19 which resulted in a distribution of $37.8 million (USD $28.4 million) to Trican and a realized gain of $24.5 million. On January 24, 2018, Keane Holdings sold 15,320,015 shares of Keane Group, Inc. at a price per share of USD $18.25. This resulted in a distribution of $33.6 million (USD $27.2 million) for Trican and a realized gain of $21.1 million. At June 30, 2018, Keane Holdings primary asset was 56.9 million shares of Keane Group, Inc. (December 31, 2017 – 72.2 million shares) and it had no liabilities.

Future liquidity events will be the future sale of the remaining shares of Keane Group, Inc. currently held by Keane Holdings. The proceeds from the future sales will be distributed to the owners of Keane Holdings. Based on the Keane Group, Inc. share price at the time of the liquidity event, the timing of the liquidity event, and the quantum of the liquidity event (and previous liquidity events), Keane Holdings will realize a rate of return on its investment ("IRR") in Keane Group, Inc. If that IRR surpasses certain thresholds, Trican, as a partner in Keane Holdings, is able to receive a percentage of the liquidity event proceeds greater than its 10% partnership stake. The class C shares are the mechanism for Trican that deliver the percentage of proceeds greater than 10%.

There are potentially four tranches of proceeds stemming from an individual liquidity event:

- Proceeds in the first tranche are split only between holders of Class A shares – Trican holds 10.0% of Class A shares and therefore receives 10.0% of the proceeds in tranche 1.
- Proceeds in the second tranche are split between holders of Class A and Class B shares (specifically 7.7% of proceeds to Class B holders and the remainder to Class A holders) – Trican does not hold any Class B shares and therefore receives 9.2% of total proceeds in tranche 2.
- Proceeds in the third tranche are split between holders of Class A, Class B, and Class C shares (specifically, 10.0% to Class C holders, 7.0% to Class B holders, and 83.0% to Class A holders). Trican holds 10.0% of the Class A shares and 100% of the Class C shares – these holdings combine to result in Trican receiving 18.3% of the total proceeds in tranche 3.
- Distributions in the fourth tranche are split between holders of Class A, Class B, and Class C shares (specifically, 20.0% to Class C holders, 6.2% to Class B holders, and 73.8% to Class A holders). As previously stated, Trican holds 10.0% of the Class A shares and 100% of the Class C shares – these holdings combine to see Trican receive 27.4% of the total proceeds in tranche 4.

The distribution table below demonstrates the monetary thresholds for each tranche through to the year ending March 15, 2022. Note that Keane Holdings is not obligated to liquidate its holding in Keane Group, Inc. prior to this date and may continue to hold a position in Keane Group, Inc. after this date. The thresholds for the second, third, and fourth tranches continue to increase over time in proportion to Keane Holdings IRR targets. Until the cumulative distribution proceeds have surpassed a specific tranche threshold, the economics of further tranches are not applicable. At June 30, 2018, Keane Holdings has cumulative distributions of USD$563.5 million (at December 31, 2017 – USD$ $283.9 million) to the Class A and Class B holders.

(Stated in thousands, except share and per share amounts)

Tranche	Trican Ownership Interest	Liquidity Event Cumulative Proceeds Thresholds (USD $MM) For the Year Ending March 15				
			2019	2020	2021	2022
First	10%	Up to	$468	$468	$468	$468
Second	9.2%	Between	$468 -1,028	$468 - 1,336	$468 - 1,737	$468 - $2,258
Third	18.3%	Between	$1,028 - 1,151	$1,336 - 1,554	$1,737 - 2,098	$2,258 - $2,832
Fourth	27.4%	Greater than	$1,151	$1,554	$2,098	$2,832

As noted above, the Keane Group, Inc. share price at the time of the liquidity event, the timing of the liquidity event, and the quantum of the liquidity event (and cumulative proceeds from previous liquidity events) determine the IRR for Keane Holdings and therefore which tranche(s) are applicable when liquidity event proceeds are being distributed to the Class A, Class B, and Class C shareholders. The calculation of the fair value and timing of the Class A and Class C shares utilized the following assumptions as it relates to the expected timing of future sales of shares in Keane Group, Inc. by Keane Holdings:

Liquidity event assumptions	At June 30, 2018	At December 31, 2017
Keane Group, Inc. (FRAC) share price for all liquidity events	USD$13.67	USD$19.01
Number of Keane Group, Inc. (FRAC) shares sold during the fiscal year ending:		
- March 15, 2018	Not applicable	18,059,860
- March 15, 2019	38,859,564	36,119,720
- March 15, 2020	18,059,860	18,059,860

Trican further applies a model risk adjusted rate of 30% for the estimated proceeds resulting from Trican's Class C shares ownership. The risk adjustment considered several estimates for uncertainties including Trican's non-controlling interest in Keane Holdings and the timing and price of future liquidity events.

The table below analyzes financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); or
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

In addition to the above commitments, the Company has committed to capital expenditures of $24.1 million.

The Company wrote off fracturing equipment with a net book value of $6.1 million resulting from an insurable event and expects to fully recover this net book value. The Company's insurance deductible is $1.0 million, which is the estimated exposure at this time. Management is satisfied that the Company has sufficient liquidity and capital resources to meet the Company's obligations and commitments as they come due.

Other litigation

On January 13, 2016, a class action lawsuit was filed on behalf of 11 plaintiffs against Trican Well Service, LP. The claim alleges that Trican misclassified the plaintiffs' position as "exempt", resulting in a loss of overtime. The plaintiffs' claim is for US$0.75 million. Given the information available, management has not recorded any amount for this contingent liability associated with these claims based on our belief that a liability is not probable and any range of potential future charge cannot be reasonably estimated at this time.

The tax regulations and legislation in the various jurisdictions that the Company operates in, or has previously operated in, are continually changing. As a result, there are usually some tax matters under review. Management believes that it has adequately met and provided and/or recognized tax assets and liabilities based on the Company's interpretation of the relevant tax legislation and regulations and likelihood of recovery and/or payment.
